PROFESSIONAL SUMMARY

Senior Software Engineer with 4+ years of expertise in React Native, React, and Next.js development. Proven track record of scaling applications from 0 to 1,000+ concurrent users and improving performance by 40%. Strong background in leading technical teams and delivering high-impact features in fast-paced startup environments.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Python
Frontend Frameworks: React Native, React.js, Next.js, Redux, Redux-Saga
Backend Technologies: Node.js, Express.js, Firebase, REST APIs
Mobile Development: React Native New Architecture, Cross-platform Development, In-App Purchases
State Management: Redux, Context API, Redux-Saga, Redux Toolkit
Development Tools: Git, Postman, Xcode, Android Studio, SonarQube
Analytics & Monitoring: Sentry, Mixpanel, OneSignal, MoEngage
Cloud & DevOps: Firebase, CI/CD Pipelines, App Store Deployment
Project Management: Agile, Jira, Trello
Databases: MySQL, Firebase Firestore

PROFESSIONAL EXPERIENCE

Senior Software Engineer

IntellectHQ | Remote | April 2025 - August 2025

- Executed complete React Native application refactoring, reducing code complexity by 30% and improving maintainability
- Successfully migrated React Native application to New Architecture, resulting in 25% performance improvement
- Implemented in-app purchase functionality enabling premium subscription monetization and recurring revenue generation

- Developed smooth animations and micro-interactions enhancing user experience and app engagement
- Integrated advanced analytics stack (Sentry, Mixpanel, OneSignal, MoEngage) reducing crash rate by 60%

Software Development Engineer

Invictus | Remote | June 2021 - April 2025

- Architected and developed cross-platform mobile application using React Native, Next.js, and Node.js from concept to production
- Scaled application user base from 0 to 1,000+ monthly concurrent users within 18 months
- Achieved 35% increase in user engagement by implementing advanced UI/UX patterns and micro-interactions
- Boosted application performance by 40% through API optimization, Redux state management, and intelligent caching strategies
- Led development team of 3 engineers, mentoring junior developers and establishing best practices for code quality

React Native Developer (Intern)

Expertrons | December 2020 - April 2021

- Developed viral career guidance application featuring TikTok-style video interface using React Native and Firebase
- Built robust state management system with Redux-Saga handling complex asynchronous operations
- Implemented real-time push notification system increasing user retention by 45%

EDUCATION

Bachelor of Computer Engineering

K.J. Somaiya Institute | 2017 - 2021
GPA: 8.04/10.0

ACHIEVEMENTS & LEADERSHIP

- **Deep Blue Season 4 Finalist:** Software innovation competition recognition
- **Team Lead at Invictus:** Successfully managed development team and mentored fellow engineers
- **Final Year Project Leader:** Led academic capstone project team
